

Groundwater Sustainability Plan for Petaluma Valley Groundwater Basin

Table of Contents

EXECUTIVE SUMMARY	ES-1
ES.1 Introduction.....	ES-3
ES.2 Plan Area	ES-5
ES.3 Basin Setting.....	ES-5
ES.3.1 Hydrogeologic Conceptual Model	ES-5
ES.3.2 Current and Historical Groundwater Conditions.....	ES-9
ES.3.3 Groundwater Flow Model.....	ES-10
ES.3.4 Projected Future Basin Conditions, Land Use, and Climate Change	ES-11
ES.3.5 Water Budget.....	ES-11
ES.3.6 Sustainable Yield	ES-12
ES.4 Sustainable Management Criteria.....	ES-12
ES.5 Monitoring Networks	ES-17
ES.6 Projects and Management Actions	ES-19
ES.7 Plan Implementation.....	ES-20
ES.7.1 Estimated Implementation Costs	ES-21
ES.7.2 Funding Sources and Mechanisms.....	ES-21
ES.7.3 Implementation Schedule.....	ES-22
ES.8 References and Technical Studies.....	ES-22
1 INTRODUCTION.....	1-1
1.1 Purpose of the Groundwater Sustainability Plan.....	1-3
1.2 Guide to the Groundwater Sustainability Plan	1-4
1.3 Groundwater Sustainability Agency Authorities and Administrative Information....	1-11
1.3.1 Petaluma Valley Groundwater Sustainability Agency	1-12
1.3.2 Petaluma Valley Groundwater Sustainability Agency Board and Advisory Committee	1-13
1.3.3 Groundwater Sustainability Agency Coordination	1-14
1.4 Stakeholder Engagement and Communication	1-14
1.4.1 Beneficial Uses and Users of Groundwater	1-15

- 1.4.2 Sustainable Groundwater Management Act Phases of Work 1-15
- 2 DESCRIPTION OF PLAN AREA (23 CCR 354.8 b) 2-1
 - 2.1 General Setting and Jurisdictional Areas (23 CCR 354.8 b)..... 2-1
 - 2.2 General Land Use Characteristics (23 CCR 354.8 b)..... 2-6
 - 2.3 Water Source Types and Water Use Sectors (23 CCR 354.8 b)..... 2-10
 - 2.3.1 Groundwater..... 2-12
 - 2.3.2 Imported Surface Water 2-12
 - 2.3.3 Local Surface Water 2-12
 - 2.3.4 Recycled Water 2-12
 - 2.4 Existing Monitoring Programs and Networks (23 CCR 354.8 c, d, e) 2-15
 - 2.4.1 Groundwater-level Monitoring..... 2-15
 - 2.4.2 Groundwater-quality Monitoring 2-17
 - 2.4.3 Climate Monitoring..... 2-19
 - 2.4.4 Surface Water Monitoring 2-19
 - 2.4.5 Land Surface Subsidence Monitoring..... 2-21
 - 2.5 Existing Management Programs and Studies (23 CCR 354.8 c, d, e) 2-21
 - 2.5.1 USGS Petaluma Valley Groundwater Study..... 2-21
 - 2.5.2 Bay Area Integrated Regional Water Management Plan 2-21
 - 2.5.3 Urban Water Management Planning..... 2-22
 - 2.5.4 Water Conservation Programs 2-23
 - 2.5.5 Climate Change Studies and Planning 2-26
 - 2.5.6 Groundwater Banking Feasibility Study..... 2-26
 - 2.5.7 Stormwater Management Planning 2-27
 - 2.5.8 Water Quality Regulatory Programs..... 2-28
 - 2.6 General Plan and Related Land Use Planning 2-28
 - 2.6.1 General Plans 2-29
 - 2.6.2 Specific Area Plans 2-32
 - 2.6.3 Sonoma County Local Agency Formation Commission 2-32
 - 2.7 Well Permitting Policies and Procedures 2-33
- 3 BASIN SETTING 3-1
 - 3.1 Hydrogeologic Conceptual Model..... 3-1
 - 3.1.1 Topography and Geography 3-2
 - 3.1.2 Surface Water and Drainage Features..... 3-2

3.1.3	Soil Characteristics	3-4
3.1.4	Regional Geologic Setting and Geologic Units.....	3-7
3.1.5	Principal Aquifer System	3-17
3.1.6	Lateral and Vertical Extent of Basin	3-20
3.1.7	Effects of Faults on Groundwater	3-21
3.1.8	Natural Groundwater Recharge and Discharge.....	3-21
3.1.9	Addressing Data Gaps and Uncertainty	3-25
3.2	Current and Historical Groundwater Conditions	3-26
3.2.1	Climatic Conditions and Trends	3-27
3.2.2	Groundwater Elevations and Trends	3-29
3.2.3	Estimated Changes in Groundwater Storage.....	3-33
3.2.4	Land Surface Subsidence	3-41
3.2.5	Groundwater Quality Conditions and Trends.....	3-44
3.2.6	Surface Water and Groundwater Connectivity	3-53
3.3	Water Budget	3-56
3.3.1	Overview of Water Budget Development	3-56
3.3.2	Overview of Model Assumptions for Water Budget Development	3-65
3.3.3	Historical and Current Water Budgets.....	3-67
3.3.4	Basin Water Supply Reliability	3-77
3.3.5	Uncertainties in Water Budget Calculations.....	3-78
3.3.6	Projected Water Budgets.....	3-78
3.4	Sustainable Yield	3-95
3.5	Management Areas	3-97
4	SUSTAINABLE MANAGEMENT CRITERIA.....	4-1
4.1	Definitions	4-2
4.2	Sustainability Goal.....	4-3
4.3	General Process for Establishing Sustainable Management Criteria.....	4-5
4.4	Sustainable Management Criteria Summary	4-5
4.5	Chronic Lowering of Groundwater Levels Sustainable Management Criteria	4-10
4.5.1	Locally Defined Significant and Unreasonable Conditions	4-10
4.5.2	Minimum Thresholds	4-11
4.5.3	Measurable Objectives	4-23
4.5.4	Undesirable Results	4-24

- 4.6 Reduction in Groundwater Storage Sustainable Management Criteria 4-26
 - 4.6.1 Locally Defined Significant and Unreasonable Conditions 4-26
 - 4.6.2 Minimum Thresholds 4-26
 - 4.6.3 Measurable Objectives 4-28
 - 4.6.4 Undesirable Results 4-28
- 4.7 Seawater Intrusion Sustainable Management Criteria 4-29
 - 4.7.1 Locally Defined Significant and Unreasonable Conditions 4-30
 - 4.7.2 Minimum Thresholds 4-31
 - 4.7.3 Measurable Objectives 4-36
 - 4.7.4 Undesirable Results 4-36
- 4.8 Degraded Water Quality Sustainable Management Criteria 4-38
 - 4.8.1 Locally Defined Significant and Unreasonable Conditions 4-38
 - 4.8.2 Minimum Thresholds 4-39
 - 4.8.3 Measurable Objectives 4-48
 - 4.8.4 Undesirable Results 4-48
- 4.9 Subsidence Sustainable Management Criteria 4-50
 - 4.9.1 Locally Defined Significant and Unreasonable Conditions 4-51
 - 4.9.2 Minimum Thresholds 4-51
 - 4.9.3 Measurable Objectives 4-54
 - 4.9.4 Undesirable Results 4-54
- 4.10 Depletion of Interconnected Surface Water Sustainable Management Criteria 4-56
 - 4.10.1 Locally Defined Significant and Unreasonable Conditions 4-58
 - 4.10.2 Minimum Thresholds 4-58
 - 4.10.3 Measurable Objectives 4-63
 - 4.10.4 Undesirable Results 4-64
 - 4.10.5 Consideration of Public Trust Resources 4-65
- 5 MONITORING NETWORKS 5-1
 - 5.1 Monitoring Network Objectives 5-1
 - 5.2 Description of Monitoring Networks for Groundwater Sustainability Plan Implementation 5-1
 - 5.2.1 Groundwater-level Monitoring Network 5-1
 - 5.2.2 Groundwater Quality Monitoring Network 5-4
 - 5.2.3 Surface Water Monitoring Network 5-8

5.2.4	Land Surface Elevation Monitoring Network.....	5-8
5.2.5	Seawater Intrusion Monitoring Network.....	5-8
5.3	Representative Monitoring Point Networks	5-12
5.3.1	Representative Monitoring Point Network for Chronic Lowering of Groundwater Levels.....	5-12
5.3.2	Representative Monitoring Point Network for Degraded Water Quality	5-13
5.3.3	Representative Monitoring Point Network for Depletion of Interconnected Surface Water	5-13
5.3.4	Representative Monitoring Point Network for Land Subsidence.....	5-18
5.3.5	Representative Monitoring Point Network for Seawater Intrusion.....	5-18
5.4	Assessment and Improvement of Monitoring Networks.....	5-18
5.4.1	Assessment and Identification of Data Gaps – Groundwater-level Monitoring Network	5-18
5.4.2	Assessment and Identification of Data Gaps – Surface Water Monitoring Network	5-23
5.4.3	Assessment and Identification of Data Gaps – Seawater Intrusion Monitoring Network	5-23
6	PROJECTS AND MANAGEMENT ACTIONS.....	6-1
6.1	Identification and Evaluation of Projects and Management Actions	6-1
6.2	Project Descriptions	6-2
6.2.1	Water-use Efficiency and Alternate Water Source Projects (Group 1)	6-2
6.2.2	Recycled Water Expansion.....	6-5
6.2.3	Aquifer Storage and Recovery	6-8
6.2.4	Stormwater Capture and Recharge	6-11
6.3	Evaluation of Projects Through Scenario Modeling.....	6-13
6.4	Management Actions	6-13
6.4.1	Assessment of Potential Policy Options for GSA Consideration.....	6-13
6.4.2	Legal Authority.....	6-15
7	IMPLEMENTATION PLAN	7-1
7.1	Governance Structure and Planned Administrative Approach.....	7-1
7.2	Groundwater Sustainability Plan Implementation Components and Estimated Costs	7-1
7.2.1	Administration and Finance.....	7-2
7.2.2	Communication and Stakeholder Engagement	7-2

7.2.3 Annual Monitoring, Data Evaluation, and Reporting 7-3

7.2.4 Addressing Data Gaps 7-8

7.2.5 Maintaining, Updating, and Making Improvements to the Model 7-11

7.2.6 Study and Implementation of Projects and Actions 7-12

7.2.7 Five-year Update to Groundwater Sustainability Plan 7-15

7.2.8 Estimated 5-year Implementation Costs 7-17

7.3 Funding 7-18

7.3.1 Fees, Grants, and Other Funding Sources 7-18

7.4 Schedule 7-19

8.2 Petaluma Valley GIS Data Sources 8-9

Appendices

- Appendix 1-A. Comments Received on Petaluma Valley Groundwater Sustainability Plan
- Appendix 1-B. Resolution of the Board of Directors of the Petaluma Valley Groundwater Sustainability Agency Forming a Groundwater Sustainability Agency for the Petaluma Valley Basin
- Appendix 1-C. Petaluma Valley Groundwater Sustainability Agency Board and Advisory Committee Members

- Appendix 3-A. Water Year Type Classification for Petaluma Valley, Santa Rosa Plain, and Sonoma Valley
- Appendix 3-B. Long-Term Groundwater Monitoring Well Hydrographs
- Appendix 3-C. Integrated Groundwater Flow Model (PVIHM); Modifications for Use in the Development of the Groundwater Sustainability Plan for the Petaluma Valley Groundwater Basin
- Appendix 3-D. Future Groundwater Demands and Land Use Changes
- Appendix 3-E. Sonoma Water Climate Scenario Assessment for Groundwater Sustainability Planning

- Appendix 4-A. Hydrographs of Representative Monitoring Points
- Appendix 4-B. Definition of Drought for Sonoma County Groundwater Sustainability Plans
- Appendix 4-C. Key Themes and Outcomes from Interconnected Surface Water Practitioners Work Group
- Appendix 4-D. Development of Sustainable Management Criteria of Interconnected Surface Water – Petaluma Valley

Appendix 5-A. Monitoring Protocols

Appendix 5-B. Comparative Hydrographs – Chronic Lowering of Groundwater Levels
Representative Monitoring Points

Appendix 6-A. Simulation of Projects and Management Actions for the Petaluma Valley
Groundwater Sustainability Plan

Appendix 6-B. Simulated Waterlevel Hydrographs from the Simulation of Projects and
Management Actions
